Water Service Shutoff/Turn-On Request

For Seasonal Irrigation Systems and Outdoor Spigots

I am the owner(s)/Responsible Party of the following listed property:

Address: _____

Block No.: _____ Lot No. _____

I am requesting to (Please check one) Turn-on my water service

Shutoff my water service

For the following Irrigation Accounts

_____	_____	_____
_____	_____	_____
_____	_____	_____

IMPORTANT: SEASONAL TURNS ON CAN NOT BE COMPLETED UNTILL WE RECEIVE A COPY OF THE ANNUAL METER TEST RESULTS.

I understand that one of the owner or owner's representatives (legal adult) must be present to provide necessary access to the water meter(s). For seasonal turn ons, water meters will be installed by your irrigation company/plumber before the water service is turned on. For service shutoff, water meter will be removed after the service is shutoff. If the meter is removed, it is the property owner's responsibility to keep and maintain the water meter in a safe and heated space for future use.

The water service shutoff is free of charge. The water service turn on is \$75 each time. The charge for water service turn on needs to be paid 5 days prior to the scheduled appointment date.
