- A. N.J.S.A. 40A:11-23.3 authorizes a bidder to request withdrawal of a public works bid due to a mistake on the part of the bidder. - (2) Upon receipt of a differing site conditions notice in accordance with paragraph (1) above, or upon the Township otherwise learning of differing site conditions, the Township shall promptly undertake an investigation to determine whether differing site conditions are present.
- (3) If the Township determines differing site conditions that may result in additional costs or delays to exist, the Township shall provide prompt written notice to the contractor containing directions on how to proceed.
- (4) The Township agrees that it shall make a equitable adjustment to the contract price and the contract completion date for increased costs and delays resulting from the agreed upon differing site conditions encountered by the contractor.

- (5) If both the contractor and the Township agree that the Township's investigation and directions decrease the contractor's costs or time of performance, the Township shall be entitled to a fair and equitable downward adjustment of the contract price or time of performance.
- (6) If the Township determines that there are no differing site conditions present that would result in additional costs or delays, the Township shall so advise the contractor, in writing, and the contractor shall resume performance of the contract, and shall be entitled to pursue a differing site conditions claim against the Township for additional compensation or time attributable to the alleged differing site conditions.
- (7) The execution of the contract between the Township and the contractor shall constitute a representation that the contractor has visited the site and has become generally familiar with the local conditions under which the work is to be performed.
- (8) Differing site conditions shall mean physical conditions at the contract work site that are subsurface or otherwise concealed and which differ materially from those indicated in the contract documents, or are of such an unusual nature that the conditions differ materially from those ordinarily encountered and generally recognized as inherent in the work of the character provided for in the contract.

SUSPENSION OF WORK.

- (1) The Township agrees to provide written notice to the contractor in advance of any suspension of work lasting more than ten (10) calendar days of the performance of all or any portion of the work of the contract.
- (2) If the performance of all or any portion of the work of the contract is suspended by the Township for more than ten (10) calendar days due to no fault of the contractor or as a consequence of an occurrence beyond the Township's control, the contractor shall be entitled to compensation for any resultant delay to the project completion or additional contractor expenses, and to an extension of time, provided that, to the extent feasible, the contractor, within ten (10) calendar days following the conclusion of the suspension, notifies the Township, in writing, of the nature and extent of the suspension of work. The notice shall include available supporting information, which information may thereafter be supplemented by the contractor as needed and as may be reasonably requested by the Township. Whenever a work suspension exceeds sixty (60) days, upon seven (7) days' written notice, either party to this agreement shall have the option to terminate the contract for cause and to be fairly and equitably compensated therefor.
- (3) Upon receipt of the contractor's suspension of work notice in accordance with paragraph (2) of this section, the Township shall promptly evaluate the contractor's notice and promptly advise the contractor of its determination on how to proceed in writing.
- (4) (a) If the Township determines that the contractor is entitled to additional compensation or time, the Township shall make a fair and equitable upward adjustment to the contract price and contract completion date.

- (b) If the Township determines that the contractor is not entitled to additional compensation or time, the contractor shall proceed with the performance of the contract work, and shall be entitled to pursue a suspension of work claim against the Township for additional compensation or time attributable to the suspension.
- (5) Failure of the contractor to provide timely notice of a suspension of work shall result in a waiver of a claim if the Township can prove by clear and convincing evidence that the lack of notice or delayed notice by the contractor actually prejudiced the Township's ability to adequately investigate and defend against the claim.

CHANGE IN CHARACTER OF WORK PROVISIONS.

- (1) If the contractor believes that a change directive by the Township results in a material change to the contract work, the contractor shall so notify the Township in writing. The contractor shall continue to perform all work on the project that is not the subject of the notice.
- (2) Upon receipt of the contractor's change in character notice in accordance with paragraph (1) above, the Township shall promptly evaluate the contractor's notice and promptly advise the contractor of its determination on how to proceed in writing.
- (3) (a) If the Township determines that a change to the contractor's work caused or directed by the Township materially changes the character of any aspect of the contract work, the Township shall make a fair and equitable upward adjustment to the contract price and contract completion date. The basis for any such price adjustment shall be the difference between the cost of performance of the work as planned at the time of contracting and the actual cost of such work as a result of its change in character, or as otherwise mutually agreed upon by the contractor and the Township prior to the contractor performing the subject work.
- (b) If the Township determines that the contractor is not entitled to additional compensation or time, the contractor shall continue the performance of all contract work, and shall be entitled to pursue a claim against the Township for additional compensation or time attributable to the alleged material change.
- (4) As used in this section, "material change" means a character change which increases or decreases the contractor's cost of performing the work, increases or decreases the amount of time by which the contractor completes the work in relation to the contractually required completion date, or both.
- (5) (a) The Township may increase or decrease the quantity of work to be performed by the contractor.
- (b) (1) If the quantity of a pay item is cumulatively increased or decreased by 20 percent or less from the bid proposal quantity, the quantity change shall be considered a minor change in quantity.
- (2) If the quantity of a pay item is increased or decreased by more than 20 percent from the bid proposal quantity, the quantity change shall be considered a major change in quantity.
- (3) For any minor change in quantity, the Township shall make payment for the quantity of the pay item performed at the bid price for the pay item.

(4) (a) For a major increase in quantity, the Township or contractor may request to renegotiate the price for the quantity in excess of 120 percent of the bid proposal quantity. If a mutual agreement cannot be reached on a negotiated price for a major quantity decrease, the Township shall pay the actual costs plus an additional 10 percent for overhead and an additional 10 percent for profit unless otherwise specified in the original bid.

(b) For a major decrease in quantity, the Township or contractor may request to renegotiate the price for the quantity of work performed. If a mutual agreement cannot be reached on a negotiated price for a major quantity decrease, the Township shall pay the actual costs plus an additional 10 percent for overhead and an additional 10 percent for profit unless otherwise specified in the original bid; provided, however, that the Township shall not make a payment in an amount that exceeds 80 percent of the value of the bid price multiplied by the bid proposal quantity.

(5) Bid proposal quantity shall mean the quantity indicated in the bid proposal less the quantities designated in the project plans as "if and where directed".

MILLING OF BITUMINOUS CONCRETE:

Description:

Milling of Bituminous Concrete shall consist of the removal of Bituminous Concrete surface and base course to the prescribed depth, profile and cross slope. Edge milling shall be performed in 7' widths, unless otherwise specified.

Equipment:

The milling machine shall be a self-propelled planning, grinding and cutting machine with variable operating speeds, capable of removing Bituminous Concrete without the use of heat.

The milling machine shall be equipped with automatic grade controls. The reference system may be either stringline or ski type. Use of automatic grade controls will be required except at intersections and other locations where it is not practical.

Teeth in the milling drum that become dislodged, broken or unevenly worn shall be replaced immediately with the teeth of the same length as the remaining teeth in that row.

Construction Requirements:

A test strip of approximately 500 square yards shall be constructed within the proposed limits of milling prior to commencement of the milling operations. The test strip shall be used to determine the machine and drum speed operation which will produce the proper surface texture and when profile milling is called for, to determine the cutting depth required to remove ruts and transverse corrugations.

The milling operation may begin when the above criteria have been established and approved. The machine shall be operated at the speeds and cutting depth determined during test trip milling. Test strips shall be constructed for each milling machine used. If the area to be milled is less than 2500 square yards, a test strip may not be required.

The milling operation, including removal of the milled material, shall be carried out in a manner that will prevent dust and other particulate matter from escaping into the air.

If the milled material is to be recycled, the milling equipment, where practical, shall be operated in such a manner as to produce milled material of which 95 percent will pass a 2-1/2 inch sieve.

If the milled material is to be recycled, the area of the milling shall be cleared of all debris and power broomed to remove fine particles prior to milling. Before brooming, earth berms shall be removed as necessary, within the area to be milled to prevent soil and grass from contaminating the milled material. Disposal of earth and debris shall be in accordance with subsection 202.11 of the NJDOT 2007 Specification manual.

Milling shall start at the low side of the cross section and progress toward the high side. Provisions shall be made for removal of any water that may be trapped due to the milling operation, such as by lateral saw cuts into the shoulder area. In the event that all milled areas which are opened to traffic have not been milled to a flush surface by the end of the workday, the longitudinal edges of the milled area exceeding 1-1/2 inches high, shall be sloped and a smooth transition shall be provided at the transverse edges.

Areas to be milled not accessible to the milling machine shall be removed by other equipment.

Bituminous Concrete below the specified level of milling that becomes dislodged or delaminated shall be removed and replaced with Bituminous Concrete in accordance with Section 404 of the NJDOT 2007 Specification manual, without additional compensation.

The surface of the milled area shall be swept clean prior to being opened to traffic and prior to the following construction of resurfacing stage. Sweepings shall be disposed of in accordance with subsection 202.11.

The milled area that will be opened to traffic before resurfacing shall be free from gouges, continuous grooves, ridges and delaminated areas and shall have a uniformly textured appearance consisting of discontinuous longitudinal striations which shall not deviate more than 1 inch in 200 feet from a line parallel to the

center of the traveled way and shall not exceed 3/8 inch depth and which shall provide a skid resistance not less than that of the original surface prior to milling and shall permit passage of traffic at the posted speed limit without vehicle operation experiencing impaired directional control. **Manholes shall be ramped with I-2 bituminous base course or 19M64 Hot Mix Asphalt and shall be protected by cones or barrels immediately to protect vehicular traffic.**

Method of Measurement:

Milling will be measured by the square yard.

The depth of the completed milling when measured from the original surface to the top of the high spots of the textured surface shall be equal to the prescribed depth of cut except for profile milling for which the depth of cut shall be only that necessary to remove the bituminous concrete above the bottom of wheel path ruts and transverse corrugations while producing a smooth profile and cross section.

Basis of Payment:

Payment will be made under:

CONSTRUCTION CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Except with respect to affectional or sexual orientation and gender identity or expression, the contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Such equal employment opportunity shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this nondiscrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex.

The contractor or subcontractor will send to each labor union, with which it has a collective bargaining agreement, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer, pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

When hiring or scheduling workers in each construction trade, the contractor or subcontractor agrees to make good faith efforts to employ minority and women workers in each construction trade consistent with the targeted employment goal prescribed by N.J.A.C. 17:27-7.2; provided, however, that the Dept. of LWD, Construction EEO Monitoring Program, may, in its discretion, exempt a contractor or subcontractor from compliance with the good faith procedures prescribed by the following provisions, A, B, and C, as long as the Dept. of LWD, Construction EEO Monitoring Program is satisfied that the contractor or subcontractor is employing workers provided by a union which provides evidence, in accordance with standards prescribed by the Dept. of LWD, Construction EEO Monitoring Program, that its percentage of active "card carrying" members who are minority and women workers is equal to or greater than the targeted employment goal established in accordance with N.J.A.C. 17:27-7.2. The contractor or subcontractor agrees that a good faith effort shall include compliance with the following procedures:

(A) If the contractor or subcontractor has a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor shall, within three business days of the contract award, seek assurances from the union that it will cooperate with the contractor or subcontractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et seq., as supplemented and amended from time to time and the Americans with Disabilities Act. If the contractor or subcontractor is unable to obtain said assurances from the construction trade union at least five business days prior to the commencement of construction work, the contractor or subcontractor agrees to afford equal employment opportunities minority and women workers directly, consistent with this chapter. If the contractor's or subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances, indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with affording equal employment opportunities as specified in this chapter, the contractor or subcontractor agrees to be prepared to provide such opportunities to minority and women workers directly, consistent with this chapter, by complying with the hiring or

scheduling procedures prescribed under (B) below; and the contractor or subcontractor further agrees to take said action immediately if it determines that the union is not referring minority and women workers consistent with the equal employment opportunity goals set forth in this chapter.

(B) If good faith efforts to meet targeted employment goals have not or cannot be met for each construction trade by adhering to the procedures of (A) above, or if the contractor does not have a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor agrees to take the following actions:

- (1) To notify the public agency compliance officer, the Dept. of LWD, Construction EEO Monitoring Program, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;
- (2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;
- (3) Prior to commencement of work, to request that the local construction trade union refer minority and women workers to fill job openings, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade;
- (4) To leave standing requests for additional referral to minority and women workers with the local construction trade union, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources in the area;
- (5) If it is necessary to lay off some of the workers in a given trade on the construction site, layoffs shall be conducted in compliance with the equal employment opportunity and non-discrimination standards set forth in this regulation, as well as with applicable Federal and State court decisions;
- (6) To adhere to the following procedure when minority and women workers apply or are referred to the contractor or subcontractor:
 - (i) The contractor or subcontractor shall interview the referred minority or women worker.
 - (ii) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the contractor or subcontractor shall in good faith determine the qualifications of such individuals. The contractor or subcontractor shall hire or schedule those individuals who satisfy appropriate qualification standards in conformity with the equal employment opportunity and non-discrimination principles set forth in this chapter. However, a contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Dept. of LWD, Construction EEO Monitoring Program. If necessary, the contractor or subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.
 - (iii) The name of any interested women or minority individual shall be maintained on a waiting list, and shall be considered for employment as described in (i) above, whenever vacancies occur. At the request of the Dept. of LWD, Construction EEO Monitoring Program, the contractor or subcontractor shall provide evidence of its good faith efforts to employ women and minorities from the list to fill vacancies.
 - (iv) If, for any reason, said contractor or subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, the contractor or subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the public agency compliance officer and to the Dept. of LWD, Construction EEO Monitoring Program.
- (7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Dept. of LWD, Construction EEO Monitoring Program and submitted promptly to the Dept. of LWD, Construction EEO Monitoring Program upon request.

(C) The contractor or subcontractor agrees that nothing contained in (B) above shall preclude the contractor or subcontractor from complying with the union hiring hall or apprentice-ship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the targeted Township employment goal, the contractor or subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the contractor or subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for

said construction trade. Also, the contractor or subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the contractor shall submit to the public agency compliance officer and the Dept. of LWD, Construction EEO Monitoring Program an initial project workforce report (Form AA-201) electronically provided to the public agency by the Dept. of LWD, Construction EEO Monitoring Program, through its web-site, for distribution to and completion by the contractor, in accordance with N.J.A.C. 17:27-7. The contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Dept. of LWD, Construction EEO Monitoring Program, and to the public agency compliance officer.

The contractor agrees to cooperate with the public agency in the payment of budgeted funds, as is necessary, for on-the-job and/or off the job programs for outreach and training of minorities and women.

(D) The contractor and its subcontractors shall furnish such reports or other documents to the Dept. of LWD, Construction EEO Monitoring Program as may be requested by the Dept. of LWD, Construction EEO Monitoring Program from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be re-requested by the Dept. of LWD, Construction EEO Monitoring Program for conducting a compliance investigation pursuant to N.J.A.C. 17:27-1.1 et seq.

The Contractor and the Owner, do hereby agree that the provisions of Title 11 of the Americans With Disabilities Act of 1990 (the "Act") (42 U.S.C. S121 01 et seq.), which prohibits discrimination on the basis of disability by public entities in all services, programs, and activities provided or made available by public entities, and the rules and regulations promulgated pursuant there unto, are made a part of this contract. In providing any aid, benefit, or service on behalf of the owner pursuant to this contract, the contractor agrees that the performance shall be in strict compliance with the Act. In the event that the contractor, its agents, servants, employees, or subcontractors violate or are alleged to have violated the Act during the performance of this contract, the contractor shall defend the owner in any action or administrative proceeding commenced pursuant to this Act. The contractor shall indemnify, protect, and save harmless the owner, its agents, servants, and employees from and against any and all suits, claims, losses, demands, or damages, of whatever kind or nature arising out of or claimed to arise out of the alleged violation. The contractor shall, at its own expense, appear, defend, and pay any and all charges for legal services and any and all costs and other expenses arising from such action or administrative proceeding or incurred in connection therewith. In any and all complaints brought pursuant to the owner's grievance procedure, the contractor agrees to abide by any decision of the owner which is rendered pursuant to said grievance procedure. If any action or administrative proceeding results in an award of damages against the owner, or if the owner incurs any expense to cure a violation of the ADA which has been brought pursuant to its grievance procedure, the contractor shall satisfy and discharge the same at its own expense.

The owner shall, as soon as practicable after a claim has been made against it, give written notice thereof to the contractor along with full and complete particulars of the claim, If any action or administrative proceeding is brought against the owner or any of its agents, servants, and employees, the *owner shall* expeditiously forward or have forwarded to the contractor every demand, complaint, notice, summons, pleading, or other process received by the owner or its representatives.

It is expressly agreed and understood that any approval by the owner of the services provided by the contractor pursuant to this contract will not relieve the contractor of the obligation to comply with the Act and to defend, indemnify, protect, and save harmless the owner pursuant to this paragraph.

It is further agreed and understood that the owner assumes no obligation to indemnify or save harmless the contractor, its agents, servants, employees and subcontractors for any claim which may arise out of their performance of this Agreement. Furthermore, the contractor expressly understands and agrees that the provisions of this indemnification clause shall in no way limit the contractor's obligations assumed in this Agreement, nor shall they be construed to relieve the contractor from any liability, nor preclude the owner from taking any other actions available to it under any other provisions of the Agreement or otherwise at law.
