# 3. SCOPE OF WORK (SOW)

## **INTENT**

The Township of Franklin is seeking proposals to conduct a Comprehensive Market Feasibility Assessment for an Indoor Sports and Recreation Complex to be located within the Franklin Business and Technology Park.

## **OVERVIEW**

Franklin Township is located in central New Jersey and within a 40-minute drive of New York City. In 2017, the Township commissioned a community market study with a focus on two commercial areas: Hamilton Street Business District and the Franklin Business Park. In addition to identifying local and regional socio-economic, industry and real estate trends, the study puts forth a number of recommendations for the Township to pursue; one of those recommendations is to investigate the opportunities and challenges of securing a privately developed and operated indoor sports and recreation complex to be located within the Franklin Business and Technology Park. Consequently, the Township is seeking the services of a consulting firm experienced with performing market needs assessment particular to indoor sports complexes.

The Township's intention for having the market assessment performed is to **a**) identify whether or not an unmet need for an indoor sports complex exists and **b**) to the extent there is an identified unmet need, what type and how large of a complex can be supported by the market.

Further, and to the extent that there is an unmet market demand for an indoor sports complex, the Township requires the successful firm to develop a request for proposal (RFP) designed to be issued nationally, with the intention of helping the Township in attracting a privately developed and operated indoor sports and recreation complex.

The market assessment should include, but not be limited to the following key elements:

- An update to the inventory of existing indoor sports and recreational complexes identified in the market study completed in July of 2017 reference <a href="https://www.franklintwpnj.org/home/showdocument?id=11454">https://www.franklintwpnj.org/home/showdocument?id=11454</a>
- Identification of existing and prospective youth and college sports tournaments which could be accommodated at an indoor sports complex located in Franklin Township;
- Identification of the local area economic development benefits associated with the development and operation of a privately run sports and entertainment complex (including the prospective benefits to the existing lodging facility in and around the Franklin Business and Technology Park);
- Identification of the financial viability of a privately developed and operated indoor sports and recreation facility.

The following is a general guideline for satisfying the Township's priorities and expectations concerning the study. The consultant is encouraged to offer alternative elements to the below scope list:

- Socio-Economic Overview (will utilize and update socio-economic data contained within the recently completed market study)
- Identified primary and secondary market areas for an indoor sports and recreation facility, expressed as a drive time.
- Sports participation trends as it pertains to youth and adult sports teams (inclusive of club sports)
- Conduct a comparative analysis of the local sports tourism market versus a competitive set of at least three other municipalities of similar character (e.g., population size and density, proximity to urban markets, etc.), including at least one in New Jersey, to help determine our current market position.
- Develop a sports tourism opportunity profile and market assessment that utilizes and builds on existing area sports facilities to attract new sporting events.
- Provide market demand information which identifies the sports and recreation needs of Franklin Township

- residents separate from the needs of the broader market.
- Compile an inventory of existing public, private, and nonprofit indoor sports and recreation facilities in New Jersey (and having a minimum square footage of 75,000 s.f.), current condition, capacity, user and spectator counts, amenities, regular use and annual events
- Specify the potential economic impact of proposed new facilities outlined in the study results and recommendations.

Consultant will develop a final report to be inclusive of a table of contents, executive summary, key findings, maps, tables and photos as appropriate. 20 bound color copies and one PDF of the final report shall be delivered to the Township at the conclusion of study. Further, a final presentation which summarizes the various study efforts, key findings and recommendations shall also be provided to the Township in PowerPoint.

# **MEETINGS AND PRESENTATIONS**

The successful consultant will be required to provide monthly progress reports as well as attend up to three onsite meetings, and a final presentation meeting, which may be a public presentation. Further, consultant shall be available for conference calls with Township representatives on an occasional basis.

## PROJECT TIMELINE

It is expected that a final deliverable be completed within a six month period of award.

The owner shall, as soon as practicable after a claim has been made against it, give written notice thereof to the contractor along with full and complete particulars of the claim, If any action or administrative proceeding is brought against the owner or any of its agents, servants, and employees, the *owner shall* expeditiously forward or have forwarded to the contractor every demand, complaint, notice, summons, pleading, or other process received by the owner or its representatives.

It is expressly agreed and understood that any approval by the owner of the services provided by the contractor pursuant to this contract will not relieve the contractor of the obligation to comply with the Act and to defend, indemnify, protect, and save harmless the owner pursuant to this paragraph.

It is further agreed and understood that the owner assumes no obligation to indemnify or save harmless the contractor, its agents, servants, employees and subcontractors for any claim which may arise out of their performance of this Agreement. Furthermore, the contractor expressly understands and agrees that the provisions of this indemnification clause shall in no way limit the contractor's obligations assumed in this Agreement, nor shall they be construed to relieve the contractor from any liability, nor preclude the owner from taking any other actions available to it under any other provisions of the Agreement or otherwise at law.
