

## Environmental Commission Minutes/Deer Seminar 5/21/18

**Attendance:** Because of the Deer Seminar format, attendance of Commissioners was not recorded. However, I estimate that all were present except for Jenny-Ann Kershner. The public consisted of 80-90 people.

Subject: Email Report of Deer Seminar, 5/21/18, 7:00pm

Hi Jenny,

We were able to overcome the technical bugs and began the seminar @ 7:05pm. Jennifer, the IT person, showed up but, was not needed. The room was more than 1/2 full with interested attendees who also had questions and some shared their opinions and personal research. Dr. Kelly did an excellent presentation based on a lots of historical data as well as current data from the Raritan watershed. After Q&A, the seminar ended @ 8:45pm followed by our Commission meeting. Dr. Kelly agreed to send us his power point presentation to be posted on our website. I tried but, was too late to get the seminar recorded for cable tv. You need at least two weeks lead time for Justin Hayman to schedule the videographer.

I hope that there are some positives as your family and you deal with your uncle's medical emergency.

Thanks for making the Deer Seminar 2018 happen.

Walter
