Subject: Elizabeth Realty ((PLN-21-00001) Application

Christine, The EC has examined the recent application which inventories trees on the property. The table they presented described many of the trees as in "poor Condition" or "extremely poor". In calculating the amount of money for the tree fund, we believe they excluded the "poor" or "extremely Poor" from the calculations.

We do not find that this is in accordance with the Ordinance. The exclusion we see is based on Caliber., There does not seem to be an exclusion for condition of the trees.
